

CO₂ Vaporisers

We offer extra ordinary Carbon Dioxide Vaporisers that are equipped with wear resistant spares and advanced technology, which makes them the ultimate choice available in the market. Widely used in distilleries, breweries and beverage processing units, our Carbon Dioxide Vaporisers have carved a niche for themselves in the market.

Specialty :

- Unique Construction
- Robust Structure
- High Performance
- Equipped with wear resistant spares
- Anti Corrosive in nature

Applications :

- Brewing, Distilling Units
- Industrial Gas Industries
- Beverage Processing Industries

Our world class range of CO₂ Vaporisers include :

EVP CO₂ Vaporiser

Water Heated CO₂ Vaporiser

Ambient Heated CO₂ Vaporiser

Electrically Heated CO₂ Vaporiser

TECHNICAL SPECIFICATIONS:

Stainless steel version				
Capacity CO ₂ kg/hr	kW	Measurements L x W x H in mm	Net weight	IN / OUT Connections
200 kg/hr	1.58	2'200 x 900 x 1'000	120kg	1" PN 40
300 kg/hr	2.37	3'000 x 900 x 1'000	210 kg	1" PN 40
500 kg/hr	2.37	3'000 x 900 x 1'200	250kg	1" PN 40
1'000 kg/hr	5.37	4'200 x 1'000 x 1'450	400kg	1" PN 40

Copper version				
Capacity CO ₂ kg/hr	kW	Measurements L x W x H in mm	Net weight	IN / OUT Connections

Capacity CO2kg/hr	kW	measurements L x W x H in mm	Net weight	IN / OUT Connections
200 kg/hr	1.58	2'200 x 900 x 1'000	100 kg	1" PN 40
300 kg/hr	2.37	3'000 x 900 x 1'000	180kg	1" PN 40
500 kg/hr	2.37	3'000 x 900 x 1'200	210kg	1" PN 40
1'000 kg/hr	5.37	4'200 x 1'000 x 1'450	340kg	1" PN 40
